

• Construction workers hold the second highest suicide rates among all occupations: 53.3/100,000 workers.

• 12% of construction workers suffer from alcohol use disorder.

Join us in raising awareness for mental health, substance abuse and addiction recovery. You can help by sponsoring, donating or participating in the hike.

When:

Saturday, September 12th, 2026

Where:

Hurricane Mountain in the Adirondacks

**6.8 mile hike, followed by a campfire
cookout!**

Hiking for the Right Path is a Local 2 Charitable Event. We are committed to helping remove barriers that our brother and sisters may be facing that would prevent them from seeking any mental health related treatment.

• 15% of all U.S. construction workers have a substance use disorder, nearly double the national average.

• 83% of construction workers have reported experiencing mental health challenges, most commonly anxiety and depression.
